# FAMILY MEDICINE RESIDENCY NETWORK

## ABOUT OUR ORGANIZATION

The WWAMI Region Family Medicine Residency Network (WWAMI Network) is a group of family medicine residency programs related to each other by geography and university affiliation. The WWAMI Network is one of the largest residency networks in the United States, and now comprises 31 residency programs in Washington, Wyoming, Alaska, Montana and Idaho. In addition, there are a number of programs in development in the region.

## OUR PURPOSE

The Network exists to promote excellence in family medicine residency education, to provide academic leadership, and to respond to societal needs for family physicians. The quality of the individual programs is high, reflected in the number and quality of applicants and residents, the excellence of the faculty, and the strong support of the sponsoring hospitals in providing up-to-date facilities and skilled staff.

To learn more about the Family Medicine Residency Network, please visit: [www.wwaminetwork.org](http://www.wwaminetwork.org)

## WWAMI NETWORK BY THE NUMBERS

The **WWAMI Network** was established in **1971**

There are **677** residents training at **31** programs and **9** rural training tracks/programs

The **WWAMI** region covers **1,058,468** square miles

**85%** of graduated residents are practicing family medicine

# WHAT BENEFITS DO I GET AS A RESIDENT?

## REGIONAL CONNECTIONS

The WWAMI Network maintains email lists for every resident class and for the chief residents to foster collaboration and the sharing of ideas between programs. We also maintain an online resource for all elective rotations available to residents in WWAMI Network programs.

## OPPORTUNITIES FOR PUBLICATION

With your faculty, you will have the opportunity to do evidence reviews to answer questions generated in practice and to write these up for publication in the Journal of Family Practice, American Family Physician, or Evidence-Based Practice through the national Family Physicians Inquiries Network.

## WWAMI OPPORTUNITIES LISTING

Stay informed of practice openings, sub-internships and fellowships throughout the WWAMI region. Check out the listings at [www.wwaminetwork.org](http://www.wwaminetwork.org) and select "WWAMI Opportunities".

## HEALTH SCIENCES LIBRARY ACCESS

Access to every reference resource you expect from a state-of-the-art medical school and university library. Hundreds of journals are easily accessed online with full text versions of articles available.

## INNOVATIVE MODELS OF CARE

WWAMI residency programs are developing patient centered medical homes in training programs.

## DYNAMIC RESEARCH

A residency-based practice research network is active and involves residents at many sites.

## RESOURCE SHARING

The WWAMI Network's Digital Resource Library, an indexed collection of materials supporting education, research, and special projects in our affiliated programs, is available for creating and sharing resources.
